Featuring a talk and a Q & A Session by:

Elaine Aron, PH.D. – Monday September 26, 2006

“What’s Special About the HSP’s Brain and Body –Scientific facts and Theories”

You will learn about new scientific theories and data that have not yet been published or presented at conferences. Taken from some of the best research laboratories which have studied the differences in brain anatomy, genes and physiological responses to stress stimuli; it is still a work in progress, so come join us and share your opinions, questions and experiences. (Elaine will speak to us via conference call set up.)

Please Make U.S. Money Order Payable in US Dollars to: Jacquelyn Strickland, 1943 Sandalwood Lane, Fort Collins CO 80526-1527 or go to: <http://www.lifeworkshelp.com/register.htm> for credit card payment via Pay Pal
